

Enjoy Nature.

boskke

Founded in New Zealand and inspired by its vibrant natural beauty, Boskke is evolving gardening. The Sky Planter, designed by Patrick Morris, transforms your enjoyment of plants in your living environments. By turning gardening on its head, the Sky Planter allows you to look up and enjoy the beauty of plants from a unique perspective. No longer will your plants be relegated to a corner – with the Sky Planter they are elevated into stunning natural features.

We may want to include greenery in our living and working environments, but space constraints on floors and worktops can limit our opportunities. The Sky Planter overcomes these limitations.

boskke

Defying gravity, the Boskke Sky Planter encourages more greenery at home and at work, without sacrificing floor space.

Using 100% recycled plastic and packaging, the Sky Planter Recycled offers a unique and practical solution to gardening where space may be limited.

The Slo-Flo internal irrigation system feeds water directly to the plant's roots limiting evaporation and dripping. A locking disc secures the plant and soil so there's no mess.

Enjoy Nature.

Sky Planter Recycled Small

Color: White
Material: Recycled Polypropylene
Components: ceiling hook, plastic plug
Spec: H 5.1", D 3.7", 0.5lbs
